

# SPECTRUM CHEMICALS LIMITED

## ENVIRONMENTAL POLICY

At Spectrum Chemicals we recognise that industrial processes have the potential to harm the environment. We therefore consider our environmental performance a key consideration in our function as a manufacturer of polyurethane resins.

We are committed to minimising the environmental impact of our operations. In particular, we will achieve this through our commitment to:

- Comply with or exceed all relevant environmental legislation and regulations and other requirements of the chemical / resin industry;
- Regularly review the environmental impact of our activities, endeavour to reduce our overall environmental impact by developing objectives and targets to address the following areas: Regulatory Compliance; Use of Raw Materials; Energy Efficiency; Water Use and Recovery and Avoidance, Recovery and Disposal of Waste;
- Sustain a programme of continual improvement in environmental performance incorporating suitable measurement and monitoring mechanisms of all activities undertaken at the facility particularly those with potential significant environmental impacts;
- The prevention of pollution, and monitoring/reducing any adverse impact of the operations on the environment and the local community;
- Using resources efficiently, ie. use of energy, water and materials, including waste minimisation and recycling / re-use wherever possible;
- Involve employees in our environmental programme and provide necessary training to discharge their responsibilities by communicating with staff, suppliers, customers and contractors to raise the environmental awareness of the requirements and importance of our EMS;
- Work with key suppliers to encourage them to develop environmental best practice;
- Working with regulators and authorities to ensure legislative compliance and properly manage key environmental issues.

Achieving these objectives will contribute to our stewardship of the environment
